

Consolidated®
WHERE TRADITION MEETS INNOVATION

IMPORTER AND AUTHORIZED WHOLESALE DISTRIBUTOR
OF PRECISION BEARINGS AND RELATED PRODUCTS

Consolidated Bearings Company, an Importer and Wholesaler of bearings and related products, was founded by William F. Meerwarth in 1932. We are a third-generation family-owned business that continues to play an integral role in the global bearing industry. We provide only the highest quality precision bearings and related components to Authorized Distributors throughout the world. Consolidated is proud to be an **ISO 9001:2015** certified company.

Consolidated has **nine warehouse locations** throughout the United States and provides same-day or next-day delivery to over 3,000 customers. Our experienced Customer Service Representatives and Territory Sales Managers provide exceptional service to all of our customers on a daily basis. Utilizing the newest technologies, we will continually improve our caliber of service while offering the highest quality products at globally competitive pricing.

Consolidated has invested heavily in maintaining one of the largest and most diverse inventories. With a 98% same-day order fill rate, we guarantee that our customers will find the products they require with the quick delivery they expect. We know that downtime can be extremely expensive, and we strive to get our customers “up and running” as quickly as possible.

Based on territory sales histories, all of our nine locations maintain products that are frequently used within their regions to better service our customers. Of course, we are happy to stock specific products requested by any of our customers at each of our warehouses at any time. In total, we have 200,000 square feet of warehouse space filled with bearings and related components.

Consolidated buys direct from the best bearing manufacturers in the world. We are also a proud Authorized Distributor for INA, FAG and Barden (Schaeffler Group).

Consolidated does not sell GREY MARKET, SURPLUS or REMANUFACTURED products.

CONSOLIDATED BEARINGS COMPANY HAS OVER 200,000 SQUARE FT. OF INVENTORY IN NINE TERRITORY WAREHOUSES STRATEGICALLY LOCATED THROUGHOUT THE UNITED STATES.

SERVICES

Same-Day Shipping
Excellent Customer Service
Online Store
Emergency Services
Bearing Modifications

SAME-DAY SHIPPING

We have a 98% order fill rate. All orders are shipped the same or next day. Additionally, we can arrange expedited same-day air shipments. We have nine shipping locations across the country. Orders are also available for will call and customer pickups. Due to our strategic locations, we can service most of our customers in one or two days via standard ground shipments.

EXCELLENT CUSTOMER SERVICE

We pride ourselves in offering a superior customer service experience. Whether by phone, fax, email or online, your inquiries and orders are processed quickly and efficiently. We believe in providing our customers with the best service possible, and it starts when you pick up the phone and call us. Your call will be answered directly by an experienced and qualified customer service representative, who can provide immediate answers to all of your questions. We believe that our personalized sales experience sets us apart from our competitors.

ONLINE STORE

Available 24 hours a day, our online store allows our Authorized Distributors to access pricing and availability. Place orders, check status and track shipments online at shop.consbrgs.com

AFTER HOURS EMERGENCY SERVICES

Consolidated personnel are available 24 hours a day, 7 days a week to handle all of your emergency requirements. For immediate assistance, please call your local toll free number.

BEARING MODIFICATIONS

Our machine shop is fully equipped to modify cylindrical roller bearings and needle bearings to various internal clearances. Other additional alterations, such as clearance changes on ball bearings, tapering, snap ring grooves, oil holes and special lubrications are also available. In emergency situations, modified bearings from our machine shop can be shipped the same day or within 24 hours.

Clearance grinding capability up to 380mm and/or 130mm width:

C3, C4, C5, W23, RL1, RL2, Custom Clearances

PRODUCTS

Consolidated Bearings Company has one of the largest and most diverse inventories of precision bearings. We have the smallest miniatures to the largest sphericals in stock, with products ranging from a bore size of 1mm to 1200mm.
