

SEALED SPHERICAL ROLLER BEARINGS

Consolidated Bearings offers a full line of sealed spherical roller bearings. These bearings are available in both single row and double row design. A tapered bore design is also available upon request. Sealed spherical roller bearings are pre-lubricated with a specially formulated grease and sealed with contact seals. This protects the bearing and lube from contaminants that could cause premature failure; in turn, reducing the frequency of relubrication required in most application conditions. This can dramatically reduce your maintenance costs and increase bearing life in contaminated environments.

PRODUCT APPLICATION

Sealed spherical roller bearings can be used in many applications including but not limited to; agricultural machines, fans, conveyor belts, small electric motors, elevators, and the food and beverage industry.

HIGHLIGHTS

Sealed with contact seals and pre-lubricated with a specifically formulated grease.

SERVICES

SAME OR NEXT-DAY SHIPPING

98% order fill rate. All orders are shipped the same or next day. We can service most of our customers in 1-2 days via standard shipping.

WILL CALL

Nine strategically located warehouses across the country. Orders can be made available for will call and customer pickups.

AFTER HOURS SERVICES

Available 24/7 to handle all of your emergency requirements. For immediate assistance, please call your local toll free number.

CUSTOMER SERVICE

Available by phone, fax, email or online and answered directly by an experienced and qualified customer service representative.

LOCATIONS

Need a bearing immediately? We offer after-hours emergency services at all of our nine locations. For after-hours support, please call your district's toll-free number and follow the prompts.
