

# ***THERMOPLASTIC UNIT MOUNTED BEARINGS***

When corrosion and heat resistance is a must, the Consolidated Bearings Company line of Thermoplastic Unit Mounted Bearings are the proven solution for your most challenging applications.

Featuring high-grade, thermoplastic housings and stainless steel insert bearings, Consolidated's Thermoplastic Unit Mounted Bearings are available in a wide range of sizes and styles including Pillow Block, Two Bolt Flange and Four Bolt Flange.

With a maximum operating temperature of 285-degrees Fahrenheit and designed with wash-down purposes in mind, Thermoplastic Unit Mounted Bearings are optimal for food-processing applications as well as use in packaging, beverage, brewing and bottling plants.

## ***PRODUCT APPLICATION***

*Consolidated's line of Thermoplastic Unit Mounted Bearings feature high-grade, thermoplastic housing and stainless steel insert bearings and are intended for clean-operating environments like food-processing applications.*

## ***HIGHLIGHTS***

*Corrosion-resistant  
Heat resistant  
High-grade thermoplastic housings  
Stainless steel insert bearings*
